

## Nathan

### Objective:

Provide essential consulting services to clients who require expertise in Oracle Database Administration for versions 6.x through 10.1.x, or installation, conversion, and interfaces for Oracle Financials along with functional expertise in several Oracle Financial modules.

### Experience:

#### **Omni-Comp, Inc.**

*President, Oracle Database Analyst, and Oracle Financial Applications Specialist Nov-95 - Present*

Oracle Database Analyst and Oracle Financial Applications specialist responsible for implementing Oracle Accounts Payable, Oracle Purchasing, Order Management, Fixed Assets, Cash Management, Accounts Receivable and Oracle General Ledger (Oracle Financials 10.5, 10.7, 11.03, 11.5.5 thru 11.5.10) and performing data conversions as well as Oracle database (RDBMS version 6.x, 7.x, 8.x, 9.x, 10.1.x) installation, reorganization, tuning, and instance recovery on various Linux, Unix, NT, and VAX/VMS platforms. Experience with Oracle Financials from version 8 through the current 11i architecture. Experience with RMAN backup and recovery procedures. Experience with RAC on AIX. Experience with Oracle Warehouse Builder. Experience with Oracle Workflow. Experience with Oracle Application Framework. Experience with XML Publisher.

- Powell Industries ((Financial Applications Specialist, GL, AP, FA, CE, AR) Apr-08 - present
  1. Provided production support for existing financial applications
  2. Team lead for financial implementation (GL, AP, FA, CE, AR)
  3. Assisted in providing training for key users in financial applications
  4. Provided test scripts for new financial application module implementation
  5. Demonstrated financial application functionality in conference room pilot exercises
  6. Created XML Publisher reports from existing Reports 6i reports
  7. Developed several reports using APEX 3.1.
- ThermoFisher Scientific (Financial Applications Specialist, GL, AP, FA, CE, AR) Oct-07 – Mar-08
  1. Provided production support for existing financial applications
  2. Team lead for financial implementation (GL, AP, FA, CE, AR)
  3. Assisted in providing training for key users in financial applications
  4. Provided test scripts for new financial application module implementation
  5. Demonstrated financial application functionality in conference room pilot exercises
  6. Created XML Publisher reports from scratch and from existing Reports 6i reports
  7. Developed form customizations using forms 6i for Oracle Financial applications
  8. Developed custom forms in forms 10G for custom application
  9. Set up demonstration of Virtual Private Database capabilities to restrict access to customer data using access policies (this never went live)
- Dell Computers (Application Development) Jan-07 – Sep-07
  1. Developed GL and AP external interfaces (inbound and outbound) for 11.5.10
  2. Assisted with verification and testing of external interfaces (multi-org, MRC)
  3. Assisted with implementation of custom imaging system
  4. Developed form customizations in forms 10G.
- Los Alamos National Laboratories (DBA, Financial Applications Specialist) Nov-05 – Dec-06
  1. Supported production and integrated test environments
    - Apply patches
    - Techstack Upgrade to 10G
    - Moved production and test databases to RAC
    - Upgrade Oracle Financial Application suite 11.5.8 to 11.5.9
    - Perform application system administration functions
  2. Developed custom workflows for specialized Human Resources functions
  3. Set up access policies to restrict access to selected critical data sets (virtual private database)
  4. Assisted with effort to transition Oracle Financials data to a new operating unit in a multi-org environment
  5. Developed custom extensions for Project Billing, Accounts Payable, Accounts Receivable, Purchasing, and Cash Management

- 6. Developed several Portal applications for various custom applications and assisted on development effort for master portal integration of departmental portal apps.
- Lawrence Livermore National Laboratory (Application Developer) Jul-05 - Oct-05
  1. Provided technical support for Accounts Payable, Accounts Receivable, General Ledger, Purchasing, Project Costing , and Project Management (version 11.5.10)
- Los Alamos National Laboratories (Financial Applications Specialist, Oracle Developer, and DBA) Jul-02 – Jun-05
  1. Implemented Accounts Payable in Oracle Financials version 11.5.9
  2. Provided technical support for Accounts Payable, Accounts Receivable, General Ledger, Purchasing, Project Billing , and Project Resource Management
  3. Built custom forms for budget entry into Oracle Project Billing module using Forms 6i
  4. Built custom mapping forms using Forms 6i for generic data mapping
  5. Implemented the Integra Apps portion of Applimation to track application changes between instances
  6. Supported several development and sandbox instances for financial applications
    - Applied patches
    - Monitored space
    - Performed application system administrator functions
- Agilent Technologies (DBA) Mar-02 - June-02
  1. Installed Oracle Financials version 11.5.5
  2. Upgraded Oracle Financials 11.5.5 to 11.5.7
  3. Implemented backup and recovery strategy
  4. Provided support for 18 instances of Oracle Financials version 11.5.7
  5. Patched several financial modules to version 11.5.8
- Automotive Finance Corporation (Oracle Developer) Sep-01 – Feb-02
  1. Developed new functionality for a custom Accounts Receivable system and interfaces into Oracle’s AP and GL
  2. Maintained current interfaces between a custom AR system and Oracle’s AP and GL
  3. Provided functional support for General Ledger and Accounts Payable
- Austin Regional Clinic (DBA and Financial Applications Specialist) Jul-01 – Aug-01
  1. Provide technical and functional support for financial applications
  2. Develop new functionality for medical visit datawarehouse application
  3. Develop interfaces between new practice management system and General Ledger
  4. Develop a custom application to capture required data the practice management system does not accommodate
- Automotive Finance Corporation (Oracle Developer) Jan-00 – Jun-01
  1. Developed new interfaces between a custom AR system and Oracle’s AP and GL
  2. Maintained current interfaces between a custom AR system and Oracle’s AP and GL
  3. Developed interface between a custom AR system and Oracle 11i modules (GL and AP)
  4. Provided functional support for General Ledger and Accounts Payable
  5. Provided functional and technical support for Cash Management
  6. Assisted in developing and maintaining interfaces between Cash Management and a custom AR system.
  7. Researched and implemented a multi-org configuration
- Austin Regional Clinic (DBA and Financial Applications Specialist) Oct-00 – Dec-00
  1. Upgraded Financials from 11.0.3 to 11.5.4 (11i)
  2. Upgraded database from 8.0.6 to 8.1.7
  3. Provided functional and technical support for General Ledger, Purchasing, Accounts Payable, Order Management, Fixed Assets, and Inventory
- ACCO International, Inc. (DBA) Jul-00 – Sep-00
  1. Assisted with installation, tuning, and monitoring of Oracle 8.1.6 and 8.1.7 databases
  2. Instituted OFA compliant structure for all databases
  3. Assisted in design and deployment of datawarehouse application
- Exult, Inc (DBA and Financial Applications Specialist) Mar-00 – Jun-00
  1. Migrated Oracle Financial Applications and database from Oracle Business On-Line hosting service to Unisys hosting service
  2. Installed and implemented Oracle Purchasing module
  3. Installed monitoring tools for v8 databases
  4. Provided functional and technical support for Purchasing, Accounts Receivable, and Project Accounting
  5. Implemented and supported EDI for inbound invoices
- Austin Regional Clinic (DBA and Financial Applications Specialist) Oct-99 – Feb-00
  1. Installed 8.0.5 database
  2. Installed 11.03 Financial Applications
  3. Upgraded Oracle Financials 10.5 to release 11.03
  4. Assisted in planning and implementing backup and recovery strategies
  5. Installed monitoring tools for v8 databases

- 6. Tuned database for Oracle Financial Application usage and user load
- 7. Provided functional and technical support for General Ledger, Purchasing, Accounts Payable, Order Entry, Fixed Assets, and Inventory
- ACCO International, Inc. (DBA) Apr-99 – Sep-99
  - 1. Assisted with installation, tuning, and monitoring of Oracle v7 and v8 databases
  - 2. Assisted in planning and implementing backup and recovery strategies
  - 3. Installed monitoring tools for v7 and v8 databases
  - 4. Performed data recovery after hardware failure
  - 5. Instituted OFA compliant structure for all databases
  - 6. Provided technical support for development staff
  - 7. Trained client DBA staff
- Frito-Lay, Inc. (DBA) Feb-98 – Mar-99
  - 1. Assisted with installation, tuning, and monitoring of Oracle v7 and v8 databases
  - 2. Assisted with installation of Oracle Financials 10.7 SC and 11.02 NCA
  - 3. Assisted in planning and implementing backup and recovery strategies
  - 4. Assisted in implementation of GEMMS Process Manufacturing modules
- Magnetek (Financial Application Specialist and DBA) Jan-97 – Jan-98
  - 1. Assisted with tuning and monitoring Oracle v7 database
  - 2. Provided functional and technical support for General Ledger, Purchasing, Project Accounting and Accounts Receivable modules
  - 3. Performed data conversions for General Ledger, Purchasing, and Accounts Receivable modules
  - 4. Assisted in planning and implementing backup and recovery strategies
- Santee Cooper Electric (Financial Application Specialist and DBA) Jan-96 – Dec-96
  - 1. Assisted with tuning and monitoring Oracle v7 database
  - 2. Provide functional and technical support for Purchasing and Accounts Payable modules
  - 3. Performed data conversions for Purchasing and Accounts Payable modules
  - 4. Created interfaces from legacy systems into Purchasing and Accounts Payable modules
- American National Can (Financial Application Specialist) Nov-95 – Dec-95
  - 1. Assisted in analyzing and correcting problems with Accounts Payable module

## **Exor Technologies**

### *Database Analyst*

Aug-94 thru Nov-95

Oracle Database Analyst and Oracle Financial Application consultant responsible for installation of new Oracle databases and conversion of data from client legacy systems to Oracle Financials on various Unix and VAX/VMS platforms. Oracle Financials versions 9.x thru 10.5 and Oracle RDBMS versions 6.x thru 7.1.6.

- Commercial Intertech (Financial Application Specialist)
  - 1. Provided functional and technical support for General Ledger and Accounts Payable
  - 2. Performed data conversion and created interfaces for Accounts Payable and General Ledger
- First USA (Financial Application Specialist)
  - 1. Provided technical support for various Oracle Financial modules
  - 2. Created interfaces from legacy systems into Oracle Financial modules
- Rockefeller Foundation (Financial Application Specialist)
  - 1. Provided functional and technical support for various Oracle Financial modules
  - 2. Performed data conversion and created interfaces for General Ledger and Accounts Payable modules
  - 3. Created custom processes to manage grant and loan transactions
- Westwood-Squibb (DBA and Financial Application Specialist)
  - 1. Installed Oracle database, installed and configured General Ledger module
- Exor (DBA and Financial Application Specialist)
  - 1. Provided in-house DBA support

## **Oracle, Inc.**

### *Senior Application Consultant*

Dec-93 thru Aug-94

Oracle database and Oracle financial application consultant responsible for conversion of data from client legacy systems to Oracle.

- Mitre
  - 1. Provided functional and technical support for General Ledger and Accounts Payable modules
  - 2. Created interfaces from legacy systems into Oracle Financial modules
  - 3. Assisted with installation and tuning of Oracle databases

## **Superconducting Super Collider Laboratories**

### *Database Administrator*

Nov-91 thru Dec-93

Oracle Financials DBA, Powerhouse tools (Quick, Quiz, and QTP)

**Skills:**

Installed versions of Oracle database from 6.0.36 to 10.1.x on various Unix (AIX, Solaris, HPUX), Linux, and NT platforms.

Installed Oracle Financial Applications version from 9.3 to 11.5.

Successfully implemented a data warehouse using partitioning and parallel query options.

Implemented standby databases for manual fail-over in case of hardware failure.

Successfully completed many data conversions from clients legacy systems to Oracle Financials.

Skilled in SQL, PL/SQL, and miscellaneous development tools such as SQL\*Loader, Import, and Export.

Familiar with Designer 2000 and Developer 2000 products.

Developed several custom applications using Oracle Forms from v2.3 to 10G, RPT, Oracle Reports 2.0 to 10G, and Developer 2000.

Developed, tested, and implemented backup and disaster recovery plans for several clients.

Developed a reporting database using Oracle Financials as source data and a custom Oracle database as the repository.

Made many modifications to application forms in Oracle Financials using Oracle forms from version 2.3 to version 10G.

Modified standard reports in Oracle Applications

Experience with Oracle Warehouse Builder

Experience with Oracle Workflow

Experience with Oracle Application Framework
